FIRST IN SERVICE TO READERS

ANTIOCH, ILLINOIS, THURSDAY, FEBRUARY 10, 1949

FIRST IN RESULTS TO ADVERTISERS

NUMBER 28

Chas. F. Richards, Town Clerk Since 1914, to Retire Justice, Clerk, Constables, And Assessor To Be Elected Apr. 5

Chas. F. Richards, veteran township official for the past thirty-six years, today announced that he would not be a candidate for re-election this April 5 at the township election. "Charley" gives his advanced age as reason for giving up the job which he has performed so well for so many years. Two justices of the peace, two constables, one town clerk and one assessor are to be elected, and to date only four petitions have been taken out, according to Richards.

Only one petition has been filed, that of Tom Burnette, candidate for constable. Jack Flanagan and Jas. Webb are incumbent constables, although Webb is no longer a resident of the township, having moved to Florida this year. It is believed that Flanagan will be a candidate for re-election.

Other petitions taken out are those of Ernest Simons for assessor; Brogan and Ed C. Jacobs for justice of the peace, both incumbents.

Closing day for the filing of petitions is March 1. Persons who wish to be candidates for township office may obtain petitions from the town clerk, C. F. Richards.

Mary Ellen Harrison, Mother of Local Man, Dies at Crystal Lake

The funeral of Mrs. Mary Ellen Harrison, 86, mother of Walter Harrison of this village was held Monday in McHenry.

Death came to Mrs. Harrison last week in the home of a daughter, Mrs. Glen Treon at Crystal Lake. Born in Modena, Mo., she was the daughter of Mr. and Mrs. Louis Brush. She was preceded in death by her husband, George, and a daughter, Florence.

Surviving besides the son, Walter, are two other sons, Raymond, of Ringwood, and Edward of Elgin, and three daughters, Mrs. Treon, and Mrs. Grace Hinz of Crystal Lake; and Mrs. Lana Peet of Ringwood, Ill.

Antioch, Barrington Meet in Opening Game At District Meeting

Sequoits Lose Overtime Game to Bensenville By 36-34 Score

Antioch High will meet Barrington in the first round of the district basketball tournament at Wauconda Feb. 22.

Pairings of nine teams which will take part in the tourney show the Sequoits meeting the conference leaders at the very start.

Barrington only beat Antioch by four points at Barrington and by only one point here, so the Sequoits know they have a good chance to win.

"They can't win all the close ones," said Coach Maurice Kruzan who often has seen teams defeated twice in season play, turn the tables in tourney competition. Barrington is the favorite, however, in the opinion of county sports writers.

Other pairings for the district tournament which will pick a representative of the smaller schools to play in the regional at Waukegan are: Lake Forest vs. Waukegan, Warren vs. Grayslake; Elia of Lake Zurich vs. Grant, Northbrook, a bye. The regional sees Evanston playing Zion, New Trier of Winnetka playing Libertyville, Waukegan vs. Niles of Skokie, and Highland Park vs. the district winner.

Antioch continued its heartbreaking experiences by losing to Bensenville here Friday 34 to 36 in an overtime game. The score at the quarter was 6-all, at the half 15-18 in favor of Bensenville, at the third quarter 26-all and at the final gun 33-40. Both teams pitched a foul, but a field goal by Anderson, Bensenville center, was the deciding play of the game.

The Sequoits will go to Wauconda next Friday night and will return here the following week in the final game, playing Palatine.

The Papposes lost to the Barrington underclassmen 24 to 31.

See That the Valentine Envelope Has the Postage If You Want it Delivered

Many a love missive sent out for St. Valentine's Day will find its way into the dead letter office this year instead of the object of the person's affections just because he or she failed to put on enough postage.

The new postal law that went into effect this year makes it necessary to put a 2 cent stamp on an unsealed letter instead of a 1½ cent stamp if the envelope is not a regular size.

Uncle Sam says odd size envelopes and that means the tiny ones too are too hard to handle so an extra charge of a half cent is levied.

So, if you want him or her to receive that love token, be sure you have the proper postage.

Conference Track Meet At Palatine, May 19; Baseball to Start May 3

Music Festival at Wauconda April 25, Career Day At Palatine

Principals of the Northwest High school conference meeting at Grant Township High school yesterday arranged for spring athletics and set May 19 as the date of the conference track meet at Palatine.

Conference standings in baseball will be based on a seven game schedule although the eight teams in the conference may play as many additional games as they care to.

Baseball will start May 3, and the standing will be based on the first round of play. A second round was decided against because of the possibility of bad weather.

The music festival will be held at Wauconda Apr. 25 with a Northwestern University faculty member serving as director.

Careers Day will be held at Palatine. On that day students who do not plan to go to college, assemble for advice on careers.

Telephone Co. to Open New Office on Main St. At 8 a. m. Next Monday

The Illinois Bell Telephone Company's new business office at 906 Main street will be open for public use beginning Monday, it was announced this week by J. M. Littler, the company's Libertyville area manager.

Beginning at 8 a. m. on Monday, telephone customers may pay bills or transact other business with the company at the new office, which is more than three times larger and is more conveniently located near the center of town than the present office at 970 Victoria street.

A change in hours will take effect with the move. The new office will be open from 8 a. m. to 5 p. m., Mondays through Fridays, but will be closed all day Saturdays, Littler said.

The present office is closed during the noon hour, from 12 to 1 p. m., but has been open Saturday mornings. It will continue to serve the telephone using public the remainder of this week, until noon Saturday.

Space for the new office was leased from Mrs. Antoinette Fields of Antioch. Formerly occupied by Maud E. Sabin's gift shop, it was remodeled for use as a business office and larger restroom facilities were also provided.

Six Firemen Give Blood For Chief Fred Peterson

Six members of the Antioch Fire department went to the Victory Memorial hospital at Waukegan Monday afternoon and furnished blood for the bank for Fred Peterson, Antioch chief of police, who recently underwent an operation there.

Peterson is showing steady improvement, friends say.

\$570 For March of Dimes

Roy Kufalk, chairman of the March of Dimes campaign in Antioch, turned in \$570 to the campaign headquarters yesterday. A few more sources not yet reported and late contributions mailed to the North Chicago office are expected to increase the total another \$100, but the amount will not be as much as last year, Kufalk believes.

T. R. Birkhead, principal of the Antioch Township High school, will attend a round table of school superintendents at the Board of Trade building in Chicago Saturday.

New Fire Station Still Unused While Contractor And Architect Debate

Village Withholds \$2,400 Until Building Is Given Approval

Antioch's new fire station remained unused this week while the contractor, Ed Kidera, and architect, Leonard Lantz argued over the condition of the building.

The architect still refuses to approve the building upon his inspection, saying that the workmanship is not up to the required standard and much is not done according to specification.

Kidera asked the village board for his money at the last meeting citing the many things he had done in the building without charge and the changes and improvements he had made in offsetting by far anything that might be lacking.

The board unable to act until the architect gives the nod of approval, is withholding \$2,400 still due Kidera.

In the meantime the firemen are disgusted over the whole situation and are wondering if they ever will get to occupy their new quarters. Fortunately the old fire barn is usable and the new pumper does not sit in the open.

Lakeland Players Will Present "Nothing But The Truth" Feb. 24-26

The comedy, "Nothing but the Truth" will be presented by the Lakeland Players Feb. 24, 25, and 26, at the Antioch Township High school under the sponsorship of post No. 748, American Legion.

The play is a sure fire hit and with the reputation of the Lakeland players for acting, Antioch is due for some good entertainment.

There are 11 persons in the cast. Robert and Dorothy Lindblad take the juvenile leads; William Nelson, Tom Burns, Homer LaPlant and Viola Nelson take the adult leads.

The humor revolves around a bet in which an aid to a stockbroker agrees to tell the absolute truth for 24 hours, much to the embarrassment of his employer.

Brother of Late H. B. Gaston Dies in Ottawa; Published Weekly Paper

Herschel R. Gaston, 68, brother of the late Homer B. Gaston, publisher of the Antioch News, died Monday of a heart ailment at Ottawa, Ill.

Mr. Gaston published the weekly LaSalle County Ledger at Ottawa for 13 years. He was born in Spencer, Ind., the son of David J. and Martha Allen Gaston and engaged in his first newspaper enterprise at Elving, Ill., with his brother, Homer. He also published newspapers at Marion, Ill., Columbus, O., and in West Virginia before going to Ottawa.

Surviving are his widow, a daughter, Mrs. James Mullholland, and a son, Donald Gaston.

The funeral was held yesterday afternoon at Ottawa and Mrs. Margaret Gaston, present co-owner of the Antioch News attended the service, stopping at Ottawa on her way home from Carmi, where she has been at the bedside of her father who is now improved.

Howard Gaston, local publisher and nephew of the deceased, and Mrs. Gaston spent Tuesday afternoon at Ottawa and remained for the funeral.

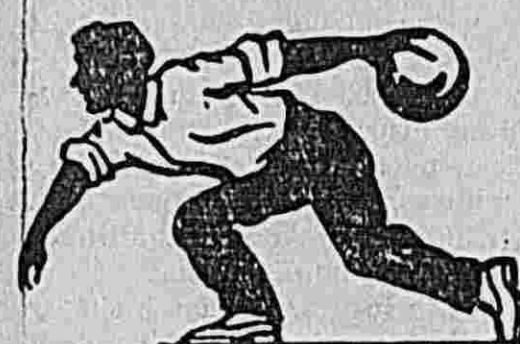

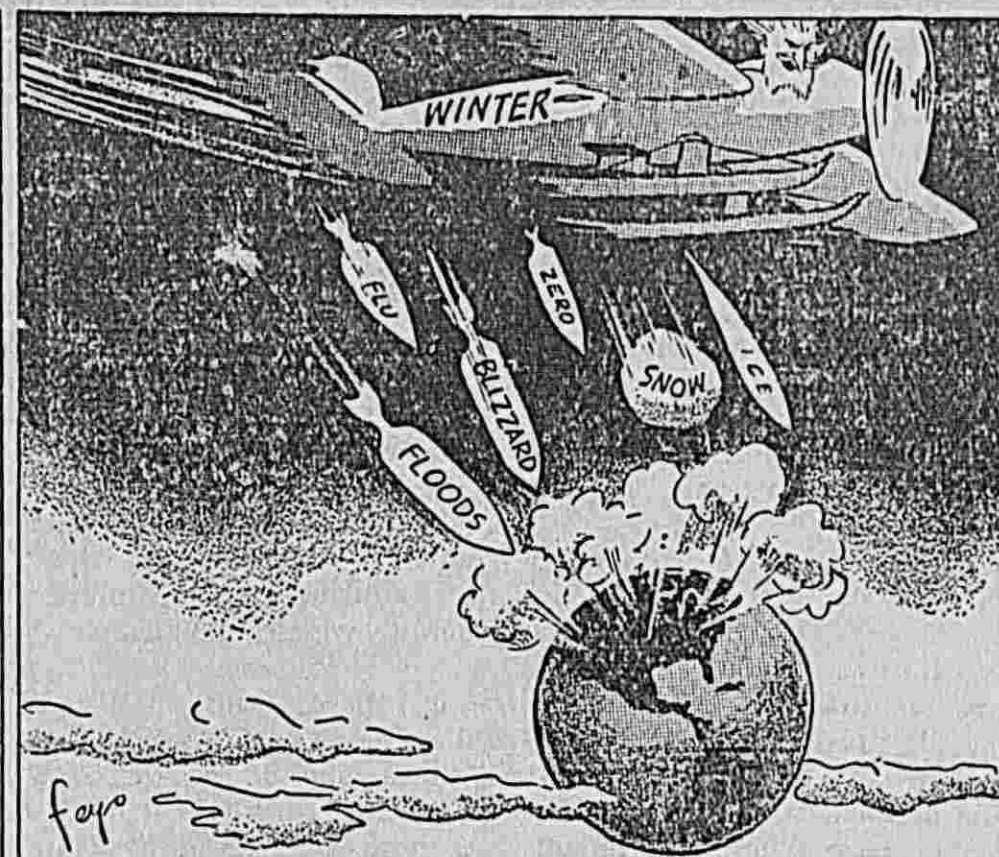

Farmers' Outlook Meeting Set for Feb. 16, Grayslake

Farmers will have an opportunity to gaze into the crystal ball at the winter outlook meeting to be held at the Farm Bureau Hall in Grayslake on Wednesday, February 16. The meeting will be held at the Farm Bureau Hall in Grayslake starting at 1:15 p. m., according to Farm Adviser Ray T. Nicholas.

Mr. L. H. Simerl of the University of Illinois Department of Agricultural Economics will discuss the agricultural outlook and agricultural problems and policies.

All farmers in Lake County who are interested in future prices and economic trends are invited to the meeting.

Annual Bombardment

Carney Misses Alley Record Wednesday

Ed Carney shot a blistering 710 series last night to miss setting a new alley record by five pins. Ed's games were 244, 255 and 211. The all-time alley record for three game series is 715, set some years ago by Henry Pape, and the high for this season is held by George Miller at 714. Only a double in the tenth frame of the last game was needed to clinch the new record for Ed.

Tourney Opens Saturday

The widely-advertised singles tournament, to start Saturday, and wind up on Sunday evening, February 20, has attracted almost 200 bowlers to date and Carl Gibson, owner of the Recreation said today that the expected 350 bowlers would undoubtedly sign up before the tournament ends.

A side bet by the bowlers themselves with the money to be added to the attendance receipts is expected to enliven the Fred Peterson benefit bowling match Mar. 6. Eli Maricich, member of last year's ABC champion team is the attraction with Harry Linder pairing with him against Bill Keulman and Emil Hallwas.

Results last week in the bowling leagues were:

Major League
Blums 3, Reeves Drug Store 0. L. Fernandez 175, 139, 186-500, and M. Tometick 179, 167, 136-482 were high.

Barnstable and Brogan 2, Bussie's 1. D. Ferris 131, 155, 200-486, and M. Walsh 177, 148, 156-481 for B and B, with H. Segelhe 187, 209, 181 577 high for Bussie's.

The Stork 2, Antioch Recreation 1. L. Keulman 192, 128, 132-452, and H. Beduhn 165, 155, 146-466 high.

Wednesday Business Men
Miller's Insurance was high for the night with 933, 910, 912-2275, and I. Veltum was high scorer with 204, 187, 233-624. He also bowled 233 for high individual game. E. Carney was second high individual scorer, bowling 614, and was also second high on game, with a 215.

Thursday Business Men
Keulman Bros., took top honors in the Thursday Night Business Men's league with scores of 865, 847, 861-2573. C. Gibson for Johnson's Resort bowled highest with 222, 160, 202-584, while G. Keulman was a close second with 582. H. Shank of Millburn bowled 226 for the highest game and C. Gibson was second with 222.

High School Meeting Was Largely Attended Tuesday

One hundred and twenty-five persons attended the meeting of the parents and teachers of Antioch Township High school students Tuesday evening at the school auditorium.

Harry Behrman, representative of the Federal Bureau of Investigation spoke on causes and prevention of crime. He was introduced by Mrs. Henry Rentner, chairman of the society.

The school's swing band played several selections and Sue Garland and Ted Glyiski played accordion solos.

Following the talk by Mr. Behrman there was a social hour during which cake and coffee were served.

Both contracts for the junior class ring and the senior class invitations were given Morgan Inc., of Chicago by Antioch students yesterday.

Pipe Thawing Causes Fire at Esmeraud Farm

The Antioch fire department was called to the Esmeraud farm a half mile north of Rte. 173 on Rte. 45 at noon Monday where flooring caught fire while water pipes were being thawed out.

The damage was estimated at \$25. Hulbert Loring, tenant, was unaware that there was combustible materials in the wall around the joists and it caught fire while he was using a torch upon the water pipes. He left the basement to go to the barn for a moment and soon Mrs. Loring smelled smoke in the house.

While the fire was mostly extinguished through the use of a garden hose and pressure pump when the Antioch department arrived, the firemen worked to an advantage in spurring into the wall in putting out sparks that the hose wouldn't reach.

The Loring's have been tenants on the farm about a year.

YOUR INCOME TAX

by
John T. Jarecki, Collector of Internal Revenue for the First District of Illinois

Interest Expense

All interest, whether paid on a business or personal loan is deductible except when paid on money borrowed to buy notaxable securities like certain bonds issued by a state, county, city or other political subdivision, on certain U. S. Government obligations, or on an indebtedness incurred to purchase a single premium life insurance or endowment contract.

You may deduct interest on an obligation which you have assumed but you may not deduct the interest you pay on a loan or mortgage of another person, even though the person is closely related to you. If you pay interest on someone else's obligation, that payment represents a gift to the individual, and of course gifts are not deductible.

Interest must be paid during the taxable year to be deductible, if you are on the cash receipts and disbursements basis—and most taxpayers filing individual returns are on such basis. If you owed interest for several years and paid the accumulated amount all in one year, you may still claim your payment if you are on the cash receipts and disbursements basis. However, if you are on the accrual basis, the interest does not have to be paid to be deductible; but the obligation of interest must have accrued during the taxable year.

Many taxpayers want to deduct the payments on the principal of a loan in addition to the interest. However, no payment that is a return of principal is a deduction for income tax purposes.

The money paid on merchandise purchased "on time" is not all classified as interest. That portion above the legal amount chargeable as interest is called a "carrying charge" or service charge; it does not represent interest and is not deductible as expense. In order to determine the exact amount of actual interest you should refer to the card or book you receive, on which your payments are registered by the company from whom you made the purchase. Usually the interest and "carrying charge" are listed in separate columns.

Board to Attend Meeting

Members of the high school board and Principal T. R. Birkhead this afternoon attended the winter meeting of the Tri-County School Board association at the Morrison hotel in Chicago.

County Fair to Be Held At Libertyville Memorial Park on Aug. 4, 5, 6, 7

The Lake county fair again will be held at Memorial Park, in Libertyville, the date being set for Aug. 4, 5, 6, and 7.

Fair officials meeting this week at Grayslake leased several acres of ground west of the park to make up for the loss of that part in the park occupied by the ball diamond which will be fenced off this year. Last year the diamond was damaged by cars driven over it.

The committee on housing will rent more tents this year for commercial and other exhibits.

This is the second year that the fair has been taken to Libertyville. Formerly the fair was held here in Antioch but it was moved because of the lack of parking space.

Waukegan sought the fair this year but couldn't find a suitable ground for it.

William Chandler, president, says the fair should be better than ever this year. The premium book is to be revised and brought up to date.

Lake County Dairymen Prepare for Convention In Chicago on March 12

Three thousand dairy farmers, all members of Pure Milk association, the largest milk co-operative supplying Chicagoland's milk, are expected to attend the annual meeting of the association to be held in the Sherman hotel, Chicago, on Saturday, Mar. 12.

This is the twenty-fourth annual meeting of the organization which represents some 14,600 dairy farmers in Illinois, Wisconsin, Indiana and Michigan. The meeting will be called to order promptly at 9:45 a. m. by W. J. Swayer, Gurnee, Ill., president.

Reports on the activities and progress of the organization during 1948 will be presented by Swayer; W. E. Winn, Richmond, Ill., treasurer; R. P. Alexander, Chicago, Ill., comptroller; F. J. Knox, Waukegan, Ill., director of sales; and C. M. Cosgrove, Elgin, Ill., secretary.

Mrs. Haven Smith, Chapell, Neb., vice-president of the Nebraska Farm Bureau, will speak before the group at 11 a. m. on "Values in Rural Living."

Dr. J. O. Christianson of the University of Minnesota will address the meeting in the afternoon and will talk on the subject, "Our Part in the World."

A. W. Colebank, federal milk market administrator, will speak before the group on the federal milk order in the Chicago milk shed. The Chicago milk shed has been under a federal order for the past nine years.

Lunch will be served to all members, their wives and guests in the various ballrooms of the Sherman Hotel promptly at 12 o'clock noon.

A. H. Lauterbach, general manager of Pure Milk association, who has been on a leave of absence because of illness, will be present to address the group and to resume his active duties.

Election of directors will be held during the meeting. The present directors of Pure Milk association include W. J. Swayer.

Kickoff Dinner Monday To Open Drive in Sale Of Hospital Insurance

Canvassers of the Health Improvement association of the Lake County Farm bureau will dine at the Otterness restaurant at noon Monday in a "kick-off" meeting preceding their two-weeks' campaign in selling Blue Cross hospitalization insurance.

Through a recently formed organization, the farmers of the bureau are now eligible to obtain hospital insurance under group rates. Directors appointed committees who, after receiving their instructions Monday, will visit all members of the bureau in offering this service.

Dr. L. E. Bavik, a Waukegan physician, will explain the advantages of the plan, and Charles Hoff, Chicago, representative of the Blue Cross plan will answer questions. More than 1,600 farm families are eligible for policies at a low rate.

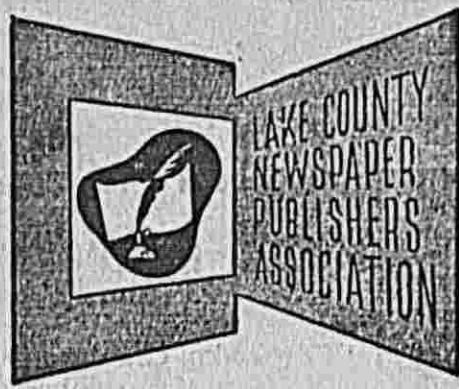

Most industrial and business groups are covered by this or a similar plan and the farmers are the few remaining who have not had opportunity.

Private Enterprise's Record

Those who have been taken in by propaganda to the effect that the future of electric power development lies in the hands of the government, should read a brief report on what the private utilities did last year, written by Ernest R. Acker, president of the Edison Electric Institute. Here are some of the high spots.

In 1948, the industry—which must use its own money, not tax money—installed an unprecedented amount of new generating capacity, topping all previous records.

The production of power, by all of the nation's generating sources, also reached a new high, surpassing the previous record, made in 1947, by nine per cent.

A third record was set in the matter of new customers. More than 2,000,000 were added in 1948, to bring the grand total to 40,800,000.

The report also contains some very interesting information on the availability of electric service. At present 94 per cent of all dwellings in the United States take service, and 3 per cent more could have it if they wanted it. And the average consumption of electricity by householders has gone on to new high after new high.

How about the farmer? Some 75 percent of all our farms are now taking service, and 12 per cent more are within a quarter-mile of power lines. It is estimated that by the end of 1951, 96 percent of farms will either receive service or have it available nearby.

Free enterprise can do any job we give to it—and do it swiftly, efficiently and economically, without taking tax funds from the public treasury. In this connection, it should be noted that the worst shortages of electricity have occurred in regions where socialized power has discouraged private development—such as the Pacific Northwest.

Back To Buyers' Market

U. S. News & World Report recently asked a number of business and political leaders to comment on the subject of "Teamwork for Government and Business." One of them was Rowland Jones, Jr., president of the American Retail Federation, who said, in part: "For the first time since the end of World War II, there is convincing evidence that the days of consumer-goods shortages are over, and that the buyers' market is returning. . . . Retailers and businessmen generally are feeling the return of competition with its emphasis on price and sound merchandising practices.

"In the period ahead the actions of the government itself will be the prime factors affecting the nation's activity and stability. The size of the national budget and the management of monetary and fiscal

policies will determine whether inflationary pressures are to continue. . . ."

Much of the talk about price controls seems designed to hide these truths. The intense competition which exists in all fields of retailing and manufacturing is proven insurance against gouging of the consumer. Merchants are working on smaller unit-profit margins than ever, in their effort to attract and keep the favor of King Consumer. And all the controls on earth couldn't change the causes of high prices—or make it possible to produce or sell anything cheaper. They would simply create shortages, and boom the black market. The greatest existing inflationary danger lies in ever-increasing government extravagance and ever-increasing government meddling, at huge cost, in our domestic affairs.

Two Kinds of Medicine

Dorothy Thompson devoted one of her recent columns to the proposed bill to establish compulsory government health insurance. She observed that she had lived under socialized and regimented medical systems in England, Austria, and Germany. She then had this to say about them: "They cost the people far too much. They provide inferior services at a high price. They are incapable of dealing with really serious and complicated cases. They result in two sorts of medicine—good medicine for the well-to-do; and bad for the masses, at high cost to those who can least afford it. And they build up a vested interest of physicians and bureaucrats which the people will never get rid of."

Miss Thompson can hardly be branded as a black reactionary—which is one of the labels the socialists often pin on those who do not agree with the premises that the cure for everything is more and more government and more and more taxes of all kinds. She observes that this country certainly does need better health service, and that people who honestly can't afford to pay for adequate care must be assisted. But, as she says, "Just why this most inventive country seems compelled blindly to copy social measures originating elsewhere is baffling." A segment of the American people, apparently, believe that we can succeed with schemes which have been an utter failure everywhere else. And that attitude, if it is reflected in action, could be disastrous.

The compulsory health insurance plan is simply one of the planks in a platform that would create a total state. Lenin himself ranked socialization of medicine high among communist objectives. And socialized medicine will come as surely as night follows day if we give the bureaucrats control over medicine practice.

The Low Down From Hickory Grove

I been reading where the Govt. says us taxpayers must dig up some more millions for more dams. For Hungry Horse dam, 24 million. For the Missouri, 87 million. For Central Valley, 63 million. And for a dozen more—all in the big millions. And who knows where they are or what they will do to people who live elsewhere. Somebody is going to take more than ho-hum interest—put their foot down—or this nation will get up some morning and the Govt. will be such a big affair that all the average citizen can do is go over in the corner and be quiet.

But I see one good omen. The paper says that the taxpayers in 20 states are getting together to see how-come they are the goat and must dig up the taxes to build Govt. powerhouses in some far away state—and where, soon as the Govt. power plants get running will start competing with these same states for business. 'Taint fair, these 20 states say—it is getting them, coming and going. A good omen, I call it—this waking up. Now, 28 more states can take note—get off the dime—read Uncle Harry's budget figures and cut-out the ho-hum.

Yours with the low down,

Mr. and Mrs. Michael Thome and family, of Kenosha, Mr. and Mrs. Frank Kamin, of Silver Lake, spent Sunday with Mr. and Mrs. Russell Ehler.

Mr. and Mrs. Glen Pacey and

family, of Trevor, spent Sunday with Mr. and Mrs. Ervin Rasch.

Shoes for Handicapped

A shelf of new shoes at the Salvation Army's men's social service center, Brooklyn, N. Y., displays only one shoe in each size. These shoes are for handicapped people with one foot.

Volunteer Firemen

It is estimated that there are around 750,000 American volunteer firemen. Compared with perhaps 100,000 full-time professionals, the volunteers largely serve the rural districts, smaller towns and communities. They respond in many metropolitan suburbs, however, including some of New York's.

Now is the time . . .

DRIVER'S LICENSE \$11,000!

Fantastic price? Not at all. You might have to pay it! If you have an accident in one of the 40 states with new, strict financial responsibility laws, you might be required to post this sum in cash or security. Failure to do so could cost you your driver's license. Why not let State Farm Mutual give you the best proof of such responsibility—FULL COVERAGE auto insurance? Our lower rates make it an extra-sound investment. Call or come in today.

ANNOUNCING
ANOTHER NEW
"FUTURAMIC"...

"88"
THE OLDSMOBILE

The Futuramic Fleet is now complete! The Oldsmobile "98" . . . the Oldsmobile "76" . . . and now the Oldsmobile "88," the newest Futuramic of them all! It's NEW in power . . . with all the brilliant action, unbelievable smoothness, and gas-saving economy of Oldsmobile's high-compression "Rocket" Engine. It's NEW in styling . . . with that brand new Body by Fisher whose lower, wider, roomier dimensions and greater visibility have made it an industry-wide sensation. But the Oldsmobile "88" goes further than that. It has an entirely NEW balance . . . a NEW "feel" . . . an indescribable something that sets it apart from any car ever built. You'll understand this when you drive the car . . . and not until. So make a date with the "88." Ask your dealer to demonstrate Oldsmobile's "New Thrill!"

Hydra-Matic Drive standard equipment on Series "99" and "88," optional at extra cost on "76." White sidewall tires optional at extra cost.

SOCIETY EVENTS

Woman's Club Cited For Best Display at District Meeting

Members of the Antioch Woman's club enjoyed the technicolor film "Trees to Tribunes" and "The House I Live In" shown by Mr. Goeway, a representative of the Midwest Projection service at their meeting, Monday, Feb. 7.

Interesting reports were given by Mrs. E. J. Hays regarding the Tenth Dist. meeting Jan. 27, and by Mrs. H. J. Krueger pertaining to the county meeting, Feb. 1.

The club received a letter honoring them for having the best display at the tenth district meeting. The display was of hand painted china painted by Mrs. Hays.

EASTERN STAR TO HAVE VALENTINE PARTY

The Antioch Chapter O. E. S. will hold a Valentine party this evening, Thursday, entertaining their husbands and friends. After a short regular meeting the party will be held in the Masonic Temple basement.

METHODIST WOMEN'S SOCIETY MEETS FEB. 16

The Woman's Society of the Methodist church will hold a pot luck luncheon at 1 o'clock on Wednesday, Feb. 16, in the church basement. This will be guest day and each member is to bring a friend.

The new study club will begin its new series discussing "China in the Asia of Today." The subject of the first talk will be "Let's Talk About China," the leader being Mrs. A. P. Bratruide, Mrs. H. J. Ruggles will have the devotions.

Mrs. W. C. Petty is the circles leader for February.

M. Y. F. SPONSORS MOVIE

This Sunday the M. Y. F. is sponsoring a movie on China called "My Name in Han." It concerns a poor Chinese farmer who returned to his farm from which he was driven during the second World War.

The once prosperous farm was left a barren waste by the Japs and Han was very discouraged. His Christian wife found strength and courage in her faith—a foolishness in Han's eyes.

By hard work the farm was slowly getting back into its original condition when suddenly the younger son had a serious accident.

The movie shows how Han was won to the Christian faith. It was produced by the Protestant Film Commission and all actors and scenes were taken in China.

The movie will be shown at 4:30 p. m., at the Methodist church and any interested person is cordially invited to attend.

M. Y. F. VALENTINE PARTY

A box social valentine party will be held at the Methodist church Sunday after the movie "My Name in Han." The boys are going to fill boxes with their ideas of good food and put them up for auction. Any girl who has enough money to outbid her competitors can buy the box of her choice.

All young people in the High School and Young People's groups are invited. There will be games following the "eats." Any boy who has his mother pack his box will be penalized.

V. F. W. AUX. TO HOLD CARD PARTY

The Woman's Auxiliary of the V. F. W. will sponsor a card and bunco party on February 18 at the Guild hall. Mrs. L. J. Zimmerman is chairman of the committee in charge of the arrangements and refreshments.

Local Men Report Fla. Fishing Good

A good many residents of the region have returned from the Clearwater, St. Petersburg area of Florida, and all of them report excellent fishing in the gulf.

George Borovicka returned last week from a short trip there, and said that his party caught more than 1000 king fish in five hours, off Clearwater.

Henry Pape, an ardent disciple of Isaak Walton wherever he may be, also hit the jack pot in Florida. A report from the "Fish'n' Tales" column of a Clearwater newspaper relates the catch made by Pape. It said in part "Working from 7:30 until 11, including going and coming and catching bait, they boated 425 pounds of fish. Some of the nicest kingfish you ever saw. Seventy-three (73) was the total number boated."

Many others from here have had a chance to enjoy the unusual fishing this year in the region. Usually the kingfish run at Clearwater begins in November and lasts about six weeks, but this year, for some unknown reason, they have lingered, and have been easily caught.

Entertain High School Faculty
Mrs. Lester Osmond, Hillsdale, member of the Antioch Township High school board of education, entertained the faculty of the high school, the wives and husbands at dinner Monday evening. The evening following was spent in playing bridge.

Fried Tomatoes
Sliced tomatoes, dipped in egg and crumbs and fried to a golden brown on both sides, are extra good dressed up with sour cream sauce. After lifting the fried slices to a hot platter, sprinkle a couple of tablespoons of flour over the fat left in the pan, mix well, then pour in a cup or a cup and a half of sour cream. Stir and cook slowly until thickened. Season with salt and pepper as desired. Then pour the hot sauce over the tomatoes on the platter and serve at once.

Early New York
New York state reached second place in the nation in manufacturing in 1810, and in the decade 1830-40 became the foremost state in the value of manufactured products. It has steadily maintained its national leadership ever since. The state has been favored greatly in commerce and industry in its geographic position as well as in its agricultural, forest and mineral resources, and the water power of its streams.

Casters Drop Out?
Fill caster holes in the furniture with melted paraffin and insert the caster. Or wrap a strip of adhesive tape around the stem of caster until it fits the hole. This will prevent it slipping out.

Farm Ponds
Use of farm ponds to supply stock water has become a common practice in areas where wells are not dependable.

HELLO FOLKS:

By Ray Cobb

Just can't seem to keep up any more, guess it must be spring fever. With all the snow we've been having, I know you must be laughing, but truthfully I will do better from now on.

Well, it's almost here, "Nothing But The Truth." A mystery comedy presented by the Lakeland Players, sponsored by the American Legion Post 748, this zany mystery promises a fair evening of entertainment Feb. 24, 25 and 26 are dates to remember, for it's on these nights at the Antioch Township High school auditorium that, "Nothing But The Truth" will be presented. So plan to attend for an evening of fun and laughter.

The Antioch Legion Firing Squad would like to announce the opening of "The Legion Club," operated for the benefit of The Firing Squad. This club will be open for business seven nights a week. Located in the Legion hall basement, the bar will function, dancing is permissible and everything is being readied for your entertainment. Here's the place you've been waiting for, where you can take the Missus for a quiet evening of fun. Do drop in to see your friends, for they'll be there.

The first Monday of every month is donated to the veterans at Downey hospital. Members of the American Legion Post 748 go to Downey then for an evening of card playing with the veterans. If any of you members play cards of some kind why don't you join us some Monday night. The veterans would be glad to have you.

Seen our basketball team lately? Under the management of Sammy Klass our Legion team is really a go-getter. If any team would like to challenge us, please contact Mr. Klass. We're only waiting for the spring season to put into action our snappy basketball team. Better keep an eye on that team. They're going places too.

May I remind you again, to attend the showing of "Nothing But The Truth." You won't regret it.

Holstein-Friesian Dairy Breeder's Association Has Good Meeting at Belleville

The Illinois Holstein-Friesian Association met at Belleville, Ill., Jan. 27 and 28 at their annual convention. The meeting was very well attended in spite of icy roads and bad weather.

The convention began Thursday afternoon with a meeting at the Southern Illinois Artificial Breeding Association barns where Mr. Stevenson gave pedigree and information about all the sires now in use.

That evening a fine banquet was served at Turkey Hill Grange Hall, near Belleville, with Prof. W. G. Kammlade, of University of Illinois giving the main address of the evening.

Friday morning the business meeting was held. The highlights of the meeting besides regular business: A Junior Membership in the association was made available to 4-H and FFA members for one dollar per year. A resolution is to be drafted before the next meeting at which time the Constitution will be amended so that the Board of Directors will be made up of one director from each local club with only a few elected at large. This will give each local club representation of the Board. The group were in favor of pledging \$4000.00 to the Fox Valley Livestock Center, a new building to be built near St. Charles, Ill.

At a breeders luncheon that noon Dr. Glen Salisbury, head of U. of Ill. Dairy Dept., gave a report on their work at the university in regard to finding transmitting ability of herd sires.

The following are the newly elected directors to serve for three years, Leslie Geddes, Rockford; Ralph Muller, Washington; D. V. Holmes, Kankakee; Vernon Smith, Genoa; A. C. Thomson, W. McHenry; R. B. Howard, Dundee; Wm. Hartke, Sr., Litchfield.

The officers for the coming year are President: George I. Maxwell, Champaign; Vice president, Robert B. Howard, Dundee; Arnold C. Wittman, Harvard; Secy-Treas., National Fieldman, Robert J. Howard, Geneva.

The meeting closed with the group going home to write to Congressmen asking them to support butter in the oleo fight in Washington.

Gorge Miller, a member of the Antioch Future Farmers of America, won third place in the section No. 3 speaking contest at St. Charles, Ill. Twenty-five schools were represented in the contest and his high rank in competition speaks well for his ability. August L. Wickert, the new chapter adviser, accompanied him to St. Charles.

Mrs. Mollie Somerville entertained her Five Hundred club at her home Tuesday afternoon.

John Stebley's Orchestra To Play at V. F. W. Dance Saturday, February 19

Sequoia post No. 4551, Veterans of Foreign Wars, has obtained the services of John Stebley's well known Waukegan orchestra for its annual dance commemorating the sinking of the "Maine."

The dance will be held Saturday evening, Feb. 19 at the California bar, one mile west of Antioch on highway 173. Known as a "hot band" the Stebley organization runs the gamut from waltzes to polkas. Admission will be free and the committee asks the public to keep this date open.

St. Peter's YPC Dance Planned
St. Peter's Young People's club will hold its first annual Valentine dance in the parish hall Saturday evening. Music will be furnished by Art Smejkal's band. Committee reports indicate that a good crowd will be on hand and the decoration and refreshments committees report that all is ready and those who attend are assured of an enjoyable evening.

Good Use for Sponge
To remove lint and particles of dust from upholstered furniture use a damp sponge.

Heat Conservation
Weatherstrip loose fitting windows and doors to make them tight and conserve heat.

Postmaster Warns That Snow Must Be Cleared From Rural Mail Boxes

Roy Kufalk, local postmaster, today reminded rural patrons that they must clear of snow the approaches to their mail boxes if they wish service.

He quoted from a postal bulletin of Oct. 16, 1947 which said:

"Postmasters should remind patrons that under the regulations they are required to keep clear the approaches to their mail boxes by promptly removing obstructions, including snow, which render it difficult or impossible for the rural carrier to deliver mail to the boxes without alighting from his vehicle. They should be informed that unless the approaches are cleared within a reasonable time after a heavy snowfall, the delivery by carrier may be withheld temporarily until the approaches have been cleared."

As our carriers in some cases have had difficulty in serving mail boxes, it is much desired that rural patrons take heed to the above quotation.

"Just in Case"
A first aid kit and a flashlight should be in the glove compartment of every automobile.

"Fine Feathers"
Fine feathers make fine birds, and they have a lot to do with the making of a fine pillow, too.

The years fly by quickly and before you know it the little "toddler" is ready for the big decision. Should he, can he go to college? Tomorrow's problems will be so much easier to face if you get the habit of regular savings today. The safe, sure and convenient way to save is to buy U. S. Savings Bonds on the automatic Payroll Savings Plan where you work. Or, if self-employed, use the Bond-a-Month Plan at your bank. Every \$3 put into U. S. Savings Bonds today will return you \$4 in ten years.

U.S. Treasury Department

Darkness Increases Danger
Early darkness during the autumn and winter months doubles traffic troubles—and it increases accident dangers on the farm, too.

WE DELIVER

SHORT STORY

Hanging The Shingle

By RICHARD D. CARR

"IMAGINE a girl like Miss Justin getting into trouble!" exclaimed Mr. Kibb, the corporation's senior auditor. "You can't be sure about anyone!"

His young assistant, Mark Thorne, looked at him thoughtfully behind his head. "How about Dyhart, the manager?"

3-Minute Fiction

"Why, Dyhart's been with the company for years," scoffed Mr. Kibb, as he left, "besides, you've got to admit she endorsed each check."

"Mr. Thorne," said a voice behind him as Mark studied the personnel files.

"Why, Miss Justin!" he said, "I wasn't expecting you. Were you to work tonight?"

"No, I came to see you. I overheard you and Mr. Kibb talking about those checks and it had me worried. Is something wrong?"

"Plenty," said Thorne. It was hard to begin. He ran a nervous hand through his black hair. "Then you know about the checks—you cashed them?"

"Yes, I cashed the checks, because Mr. Dyhart told me to. Wait—you don't believe I took all that money!"

He saw cold, tight lines etched about her lips. "No, Miss Justin, but Mr. Kibb can't see it any other way. Didn't you suspect anything?"

"Certainly, I guess I looked puzzled, because each time when I handed Mr. Dyhart the money, he mentioned a change in the accounting rules."

Thorne jumped. "If Dyhart said that, it's plain to me that he was in on it. He disguised his signature, so that when it came to a showdown, he could blame everything on you. That's why he had you cash the checks!"

"How can you prove it?" asked Miss Justin weakly.

"Well, it's a long chance," said Thorne, slamming his fist. "If I lose and the corporation kicks me out—I've been wanting to hang out a shingle for a long time."

MR. DYHART looked surprised as he ushered them into his living room. "Just leaving, Thorne, but business before pleasure. I suppose it's something to do with the audit?"

"That's correct," said Thorne. "Dyhart," he purposely skipped the "Mr." "you had Miss Justin cash several checks recently, amounting to nearly \$10,000."

"Ridiculous," smiled Dyhart. "I know nothing of any checks."

"We've practically discovered the guilty person," went on Thorne dryly, as he opened his case and removed a cancelled check. Thorne took a sheet of paper, placed the check on it, and flashed it before Dyhart's eyes.

"All you have to do, Dyhart," he said, "is copy the signature on this check!"

The manager's lips curved bitterly, but he took the pen. The

"I guess you won't hang out your shingle," said Miss Justin.

only sound was the tick of a clock. The pen dropped from Dyhart's hand and plopped on the rug.

Thorne snatched the pen. "Never mind, Dyhart, that's enough. This afternoon we asked every employee to copy that signature. Not one hesitated. You did, and you're guilty. I reasoned, since the tellers passed those checks, the signature, though doctored a bit, was actually yours—disguised!"

A groan fled Dyhart's lips. "I wanted to get the money back in time," he gasped. "I didn't mean to involve Miss Justin, but she was my secretary. Don't swear out a warrant, Thorne. I'll pay it all back!"

After they were in the street, Thorne took a deep breath. It made him tingle and look up at the stars panned on a clear sky.

"Well, you're still a travelling auditor with a job so I guess you won't hang out your shingle," said Miss Justin softly.

"If I could find a secretary, a good one. Miss Justin—would you?"

"Take dictation from you?" Miss Justin laughed when she said it. Thorne decided it was the pleasantest laugh he had ever heard.

Released by WNU Features.

Ranch Girl, 14, Is Youngest Licensed Guide in America

WAYNESVILLE, N. C.—If you're looking for Juju Alexander, the 14-year-old Catalhoochee ranch girl, you'll probably find her jogging through the Great Smokies on Dynamite, leading the way for a party of grownups.

Juju, whose short career has included everything from breaking fractious colts to comforting tenderfeet unaccustomed to the wilds of the Smokies, is the youngest licensed guide in the United States park service.

Juju has been wise in the ways of horses, people and the wilderness for a long time. By the time she was five, she thought nothing of climbing into feed boxes and trying to bribe horses considered on the frisky side by other wranglers. By 12, she needed little instruction from her mother and father, who have ridden most of the 600 miles of Great Smoky trails.

Her father is convinced Juju could lead a week's pack trail group, but right now he confines her to day rides or "short night-ers," in which guests ride to predetermined campsites, spend the night and return next day to the mile high ranch.

She can stretch a sketchy lean-to by herself if she has to, but she seldom does. Her scarce concealed contempt for city dude helplessness, plus the fact most of the ranch hands want to go along, leaves her little more to do than supervise.

Says her father: "It's her only fault as a guide; she takes all the hired help away."

Child Patient Helps Doctor Remove Nail

ATLANTA—A little boy with a nail in his stomach was taken to the Ponce de Leon clinic to be magnetized.

He was and so was everybody else.

Little David Wright, 2, of Ellijay, became so fascinated by the magnet which doctors were using to remove the nail that he swallowed it cheerfully. He even helped pull it up again.

Doctors at the clinic said it was the first time they had ever performed such an operation on so young a patient without first putting him to sleep.

Florida Educator Urges More Play for Teachers

TALLAHASSEE, FLA.—A Florida educator asserts that elementary teachers need more time during the school day to "relax, drink a coke, smoke a cigarette or gossip with other teachers."

Dr. J. C. Peel, dean at Florida Southern College, says the teacher in the lower grades "has children under foot or in her hair from 8:30 a.m. to 3 p.m. five days a week."

The lack of free time, he says, is directly responsible for the shortage of instructors in schools all over the country. He thinks something should be done to attract more teachers to the elementary schools.

"It is impossible to do good high school or college work on a base of ineffective education in the lower grades," Dr. Peel declared in an article written for the Florida School director.

"The greatest disadvantage of elementary teaching is that the teacher is allowed no time during a school day in which she can be away from the children," he wrote.

Professor Asserts Device Can Prevent Deadly Smog

CINCINNATI.—An Indiana University professor said that a simple electrical device could be used to avoid deadly smogs like that which killed 19 persons in Donora, Pa.

The professor, Dr. Frank T. Gucker, Jr., said the device, known as the Cottrell precipitator, filters factory fumes.

Gucker said the smog frequently found in industrial areas comes when water vapor condenses upon particles of dust and smoke in the air. These particles are known as aerosols.

"These aerosols may be removed rapidly and completely," he said, "by means of a high-voltage electric discharge, which charges the individual particles and draws them over to one of the electrodes where they are deposited."

Italian Midget Submarine Takes Unscheduled Dive

NAPLES, ITALY.—An experimental Italian midget submarine took an unscheduled dive—and it sank. No one was aboard.

The submarine is Pietro Vassena's C-3, a cross between a watch pocket submarine and a diving bell. It is 25 feet long and 4½ feet wide, shaped like a barrel and equipped with pincers fore and aft to grapple for treasures on the floor of the sea. It carries two men.

The inventor, who tested it at Lake Como, said it could go 2,400 feet underwater and stay there 20 hours.

Vassena brought it here to dive in reported 2,700 foot depths between Naples and Capri.

While being towed it went under suddenly and sank in 330 feet of water within 40 seconds.

Life Average Of Americans Climbs to 67

NEW YORK.—Life expectancy in America today is at an all-time high of 67 and still advancing, although at a somewhat slower pace than formerly. If a woman gets to be 63, she can expect to live almost 80 on an average; a man somewhat less.

The sexagenarians have become America's new glamor kids.

They are getting almost as much attention in the papers as the teen agers. That's a lot of attention.

Teen agers always have been with us but only in recent decades have their elders accepted so generally the proposition that they dress differently, act differently, and have different codes and problems that are well worth studying and humoring.

The sexagenarian also has been with us always, but never in such numbers as now.

You have the actuaries' word for it that he is on the increase. The American population in general is growing older. One estimate is that 10 million of us are 65 years old or older now, and that by 1980 the number will be 21 million out of a 150 million total.

Worry About Support

People who worry about tomorrow are figuring right now how such a percentage of oldsters can be supported in the style to which they will then be accustomed. They are trying to dope out the effects of such a trend on taxes, industry and politics.

The medical profession, having fought to a standstill some of the diseases of childhood and youth, is swinging the spotlight from pediatrics to geriatrics, the study of the aged. Heart disease and cancer, the bane of later years, are present targets.

At Baltimore, a United States public health service unit is trying to find how to make people live out normal lives as vigorous, useful citizens. An association for successful aging has been formed.

The dictum that life begins at 40 once was novel. In the depression, good will groups labored to prove that men out of a job at that age are material for re-employment.

"Stick to Be 60"

Now nothing less than "it's slick to be 60" would be likely to command attention. Experts say premature retirement brings about speedy incapacity and death, and that older employees are capable and trustworthy.

The theorists are thinking less about pensions and more about opportunities for continuing work and usefulness. Old folks proved themselves in the last war as a real labor reserve.

A radio network program titled "Life Begins at 80" is trying to steal the show from the quiz kids.

It's no wonder, as a result of all this, that individual oldsters command the limelight.

Interviewing centenarians on how to be 100 is an old sport. Lately it's got to be a fad.

"Moderation in everything" seems to be the standard reply. But here are lots of others, like—"Maybe because I wear two petticoats." "I've been a faithful smoker." "Be seriously ill for a start." "Be interested in doing all possible for everybody." "Lots of work." "Never worry."

Doctors Seek Causes of Cancer in Science Field

NEW YORK.—The new things science is making for comfort and pleasures may be causing some of the increase in cancer, Dr. John R. Heller, Jr., of the National Cancer Institute reported.

To find out, he told the annual society of the American Cancer society, a new kind of research laboratory is being set up at Georgetown University Medical school. This laboratory will study environment's role in cancer.

Nearly all the known causes of cancer, said Dr. Heller, are external—they are things man comes in contact with in his work or his community. They do not come from his own body.

This, he added, has caused suspicion that search will uncover many more external causes of cancer.

"Industrial progress," he said, "has been marked by many new substances contributing to the comfort and pleasures of life. But these same substances have been adding a whole new spectrum of poisons to man's hazards."

Stormy Weather Increases Petty Thievery in Chile

TEMULCO, CHILE.—Stormy weather was blamed for a series of petty robberies in Temulco, Chile, which police seemed unable to stop. Residents of the town thought the trouble might be due to the small number of policemen on duty, or to the fact that on wet and stormy nights these guardians are wont to find sheltered spots and there pass the time. The police view: "Those who go out with the object of raiding poultry yards generally do so during wet and stormy weather."

Farm Bureau Annual Meeting to Be Held At Grayslake Feb. 19

Farmers of Lake County who attend the 34th Annual Meeting of the Farm Bureau at the Grayslake Grade school on Saturday night, Feb. 19, have an unusual treat in store. The board of directors has secured Tom Kelly, nationally recognized conservationist, lecturer, cartoonist and humorist, as the main speaker.

A native of Minnesota, Tom Kelly is a former newspaper man, art director, cartoonist on staffs of St. Louis Republic and Minneapolis Journal. With sketch pad he covered national political conventions and sports events. While in newspaper work he was recognized as a distinctive entertainer, with both chalk and talk.

Interest in the out-of-doors and conservation led him to combine entertainment with a philosophy of conservation. His avocation soon became his vocation, and he joined the Minnesota Department of Con-

servation, where he was a pioneer in conservation education.

With this unique, informal presentation of a serious subject, he was in big demand, as a speaker, from the start. Before a college audience in Minnesota, a few years ago, he was introduced as the main who had directed more people to thinking about conservation than any man in the state.

Requests from outside the state resulted in a national lecture tour, sponsored in part by the Universities of Wisconsin and Kansas, which took him over the midwest, eastern states, and parts of Canada.

From 1944 to 1947, he was on the

educational staff of the U. S. Department of Agriculture, Soil Conservation Service, where the Grand Rapids, Mich., Press said he proved to be Uncle Sam's most popular agricultural speaker, who received many more invitations than he was able to accept.

Origin of 'A-1'

Familiar saying "A-1" originated with the famous insurance firm, Lloyd's of London. The World Book encyclopedia states that Lloyd's rated ships according to how safe they were. If a ship was considered a good risk, Lloyd's rated it "A-1."

SHORT STORY

Fifty Grand A Year

By
FREDERICK MEDLIN

THEY still wonder why Johnson went mad so suddenly after he got out of stir. That is, all but Leo, the fence.

Johnson remembered it all as he strode feverishly through the hot, breathless night. The black curtain of darkness that pressed upon every side could not hide those things that had gone before. Even their memory increased his furious pace, and it was an effort not to cast a furtive glance over his shoulder as he drew near the spot on which the great oak should stand.

He remembered the night of ten years ago that he had stolen the Alsmeyer jewels. It had been a desperate thing to do, and he had half expected to be caught. His mind's-eye saw himself crawling up those precarious tracers of ivy on the high back wall of the Alsmeyer mansion. He recalled how cautiously he had opened the window with a glass-cutter and a file, how carefully he had placed the charge of explosive against the cleverly-concealed wall safe, how feverishly he had hurried through the acrid smoke to the battered door after the muffled explosion had shaken the room.

THEN down that sweep of ivy again to the ground and over the wall and along the hard road as the uproar behind him steadily grew . . . the car with the fingerling searchlight darting down the road . . . his dogged flight across the field to the momentary haven of the huge oak . . . His fingers trembled convulsively again as they had when he had tumbled the jewels quickly into the leather bag and buried it safely, far back under the upcurled root. He heard again the deep-throated baying of the hounds, growing always closer, as he had heard it that night, hour after hour, twisting and dodging and hoping, knowing in his own heart that he would be caught, and fearing it with hysterical terror.

And that capture! The quick shot . . . the rapid whine of the bullets . . . the huge dogs dragging him down . . .

But they had never found the jewels. He had hidden them well, and for that he had been grateful for ten years.

He came quite suddenly upon the clump of trees. They seemed in the thick darkness to be the same stand of ten years ago. He moved about quickly with the flashlight until he found the peculiar root that curved outward and looped upward slightly, just as it had so long ago. He dug back through the loose earth

He had half expected to be caught.

under it; his fingers tingled as they touched rotten leather, and there were the jewels spread out. They were dull—but they were the Alsmeyer jewels.

AN HOUR later they were shimmering on velvet in Leo's back room that he used for business of secrecy; and Johnson was trembling with excitement.

Johnson paced the floor. "Five hundred grand!" he gloated. "That's fifty grand a year in the big house, and still they say crime don't pay. Why, Leo, I know lots of big guys that don't make fifty grand a year. I'm up in the big money now and it feels wonderful."

"You know what these are worth?"

"Yeah. Sure I do. So do you." Perhaps he only wanted to bargain. Some of the dread died in Johnson's heart. "Ain't you the best fence in the East? That's why I came to you. I know you'll give me a square deal."

"You know that I'm honest?" Leo's query was very grave and very earnest.

"Sure. You always have been."

"The Alsmeyer jewels," said Leo slowly, almost sadly, "are just imitations. They might be worth five hundred dollars."

They still wonder why Johnson went mad so shortly after he got out of stir, that is, all but Leo, of course. Leo would know, for he is a very shrewd judge of human psychology—and jewels. It is said, by those who know, that Leo made almost half a million dollars out of the Alsmeyer jewels.

Released by WNU Features.

MILLBURN

Rev. L. H. Messersmith has chosen "The Champion of Brotherhood" as the topic of his sermon for Sunday, Feb. 13. The new church officers were installed at the church service Feb. 6.

There was a good attendance at the basket social given by the P. T. A. in the church basement Friday evening. More than \$80 was realized for the treasury.

Rev. L. H. Messersmith spent several days in Chicago the past week, attending the Ministers' Convention at the Chicago Theological Seminary. He was chairman of a round table discussion of students of rural ministry, a program sponsored by the Church Federation of Chicago and held at McCormick seminary Saturday.

Mrs. John Clark, who was a medical patient at St. Therese hospital since last Tuesday, was brought to her home Saturday.

The Pilgrim Fellowship will hold a skating party at the rink in Zion Tuesday evening.

Howard Bonner returned home Sunday from Condell hospital, Libertyville.

Mr. and Mrs. Arthur Myer and sons are moving this week from the Leslie A. Morris farm north of Millburn to the H. J. Moheiser farm on Route 45 east of Millburn school, where Mr. Myer will be caretaker.

Founders day was observed at the meeting of the Parent Teacher's association Tuesday evening. Group singing was led by the program chairman, Carl Anderson. Vocal solo by Mrs. W. A. Robbins and a skit was presented by Mr. and Mrs. Lyman Thain, Mr. and Mrs. Carl Anderson, Mr. Bromstad and Mrs. H. Kenimer, shawing the relation of the P. T. A. to the home, church, school and community. Millburn P. T. A. was organized in 1924 and eight past presidents, Mrs. Gordon Bonner, Mrs. J. S. Denman, Mrs. Leslie Bonner, Mrs. Harry Shank, Mrs. A. B. Coulombe, Mrs. Carl Anderson, Mrs. Lyman Thain and Mrs. Don Holem were present and were honored with a birthday cake at a special table during the social hour.

Mr. and Mrs. Robert Clark spent Sunday at the Gerald Lolmaugh home in Waukegan.

Mr. and Mrs. Fred Klein, Mrs. Helga Hagen and Mrs. Corrine Erwein of Chicago were callers at the Messner home Monday, and Mrs. Messner accompanied them to Kenosha in the afternoon.

Richard Martin, instructor at Western Military academy in Alton, Ill., spent the week-end with his parents, Mr. and Mrs. E. A. Martin.

Albert and Milton Smith, James Cunningham and Edwin Jones have returned to their work at University of Illinois after two weeks vacation at their respective homes.

Mr. and Mrs. Herbert Messner and son, Herbert, spent Wednesday in Chicago and called on the former's father, Chris Messner, who is ill in a Chicago hospital.

Mrs. Ida Truax spent Sunday with her sister, Mrs. Fred Tebben and family in Waukegan.

Rev. and Mrs. Messersmith and Mrs. Ora Davis attended the P. T. A. meeting at Browe school Thursday evening, where Rev. Messersmith showed colored slides.

Miss Delores Sundin spent Saturday with friends in Chicago and attended the Outdoor show at Navy Pier.

Mr. and Mrs. Chris DeYoung, Mr. and Mrs. George DeYoung and son, David, were dinner guests at the

Straw for New Water Pipes

Cover newly laid water pipes with straw or hay the first winter, even though they may be installed below frost level. During the first winter after the water pipes are laid, the ground over the pipes will be loose. This permits the frost to go down below its normal level. A foot of hay or straw placed over the pipe line, particularly where it will not be covered with snow, can prevent any danger of damage by freezing.

Open Flame Heaters

Kerosene as well as other fuels is often used in portable open-flame heaters. They must be cleaned frequently, handled with care, and repaired promptly when defects become apparent. They should never be filled indoors or placed where there is danger of knocking them over. They should never be used in tightly closed rooms and under no circumstances should they be left burning in bedrooms after you have retired.

X-ray Measures Steel

Thickness of red hot steel as it leaves a rolling mill's finishing stands now can be determined accurately and speedily by electronic X-ray without touching the metal. Until recently the measurement was made by hand, after the steel had cooled from at least 1,400 degrees to a point where a micrometer could be held against the metal.

Why Dog Turns Round

The modern dog has many of the instincts of its wild ancestors. When a dog lies down, even in a room, he turns around a few times. This dates back to the days when the dog made himself a bed in the tall grass. The dog turned around so that he could lie on a bed of trampled grass and be protected by the tall grass growing around him.

Oscar Neahous home Wednesday.

Mrs. Frank Edwards, Mrs. Oscar Neahous, Mrs. W. A. Robbins and Mrs. Herbert Messner, represented Millburn unit of Home Bureau at the membership party at the U. S. O. in Waukegan Tuesday afternoon.

Rev. Messersmith conducted church services for the boys at Alendale school at 12:30 Sunday.

Mrs. W. F. Wetzel, president of Millburn unit of Home Bureau, entertained the members of the board, Mrs. Chester Lundgren, Mrs. Arthur Becker, Mrs. Messner and Mrs. Robert Murrie at her home in Libertyville Tuesday afternoon and plans were made for 1949, and chairmen were selected for the various committees.

Rev. Messersmith is showing edu-

cational sound movies in seven local schools this week.

HICKORY

There will be a card party at the Hickory school house on Friday evening, Feb. 18.

Spencer Wells and his son, Oliver, from Wilmet visited the Gordon Wells family Friday evening.

Mr. and Mrs. Ward Edwards and two sons from Rockford, Mr. and Mrs. Robert Taylor and two sons from Rock Lake and Mr. and Mrs. Harold Edwards and daughter were Sunday dinner guests at the Bert Edwards home.

Mr. and Mrs. Bert Doolittle and daughter, Jean, arrived home Sun-

day afternoon from a two weeks' vacation trip spent with relatives in Florida.

Mr. and Mrs. E. W. King and Mr. and Mrs. John Strahan spent Monday, Feb. 7, with Mrs. William Strahan and children at Farnsworth. Feb. 7th was Mr. and Mrs. King's wedding anniversary and also the former's birthday. Lt. William Strahan is away on maneuvers in the Caribbean sea.

There will be a dance at the Rosecrans school house on Saturday evening, Feb. 12. Bob May's orchestra will play. Lunch will be served.

Mrs. Gordon Wells and son, Gordon called on Mrs. Mamie Cannon at Gurnee Sunday afternoon.

Mr. and Mrs. Bob Alverson and

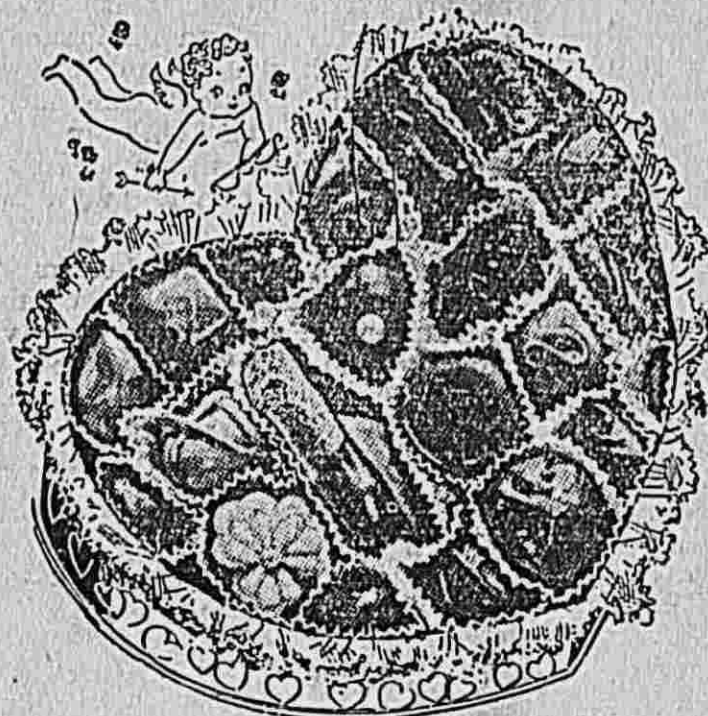

children, Barbara and Fred, from Kenosha were supper guests at the Fred Leable home.

George Handley of Chicago visited his father, S. J. Handley, over the week-end.

Funeral services for Mrs. Minnie Webb Savage were held in Waukegan, Monday afternoon, Feb. 7, with burial in the family lot in Hickory Union cemetery. She has been making her home with her granddaughter in Waukegan.

Harold J. Thompson of Zion visited the Will Thompson family Saturday afternoon.

Miss Helen Thompson of Waukegan was home over the week-end. Jerry Hunter spent Sunday in Chicago.

POWER PLANT

that uses
its
Head!

THIS is the husky thrill-producer you find filling the bonnet of any 1949 Buick.

Look it over and you'll observe, among other things, that it is a valve-in-head straight-eight.

In simple language, this means that years ago Buick engineers lifted the valves from the side of the cylinder and put them on top—with some immediate advantages.

Such an engine "breathes" better. Gets a full, even charge on every intake—exhausts spent gases more easily—enjoys extra power, life and ginger.

And in such engines, compression ratios are relatively easy to establish. To step them up, the head is merely brought closer to the piston—no extra problems are presented getting fuel in and exhaust out.

Thus Buick power can—and has—kept pace with progress in fuels. Compression ratios suit gasolines actually available—and there's no

waiting for tomorrow's gasolines to get full performance.

There are other things to notice about this engine.

It's a Fireball power plant—uses a special and exclusive type of piston that gets more good out of each fuel charge.

And it speaks with soft, new quiet. Self-setting valve lifters automatically keep valves properly seated, ending tappet noises for good.

With gasolines getting better, the swing to valve-in-head design will undoubtedly grow stronger. But that is what Buick has had all along—a power plant that uses its head to give extra lift and thrill.

That's enough reason to see your Buick dealer now, with or without a car to trade, to get your order in.

SALEM

The Pricillas met at the home of Mrs. Janet Fletcher on Thursday afternoon with about 20 persons present. The topic of discussion was for redecoration of the parsonage. Next meeting will be held at the home of Mrs. James Nicolls.

Mr. and Mrs. Ray Patrick and son, Michael, of Kenosha, were Sunday supper guests of the Byron Patricks.

Lester Dix has been confined to his home during the past week with mumps.

Mr. and Mrs. Art Feldkamp, and Mr. and Mrs. Carl Zeulsdorf left on Thursday for Texas, where they will spend several weeks.

Mr. and Mrs. Clarence King and Mr. and Mrs. Lyle Woodbury attended the Eastern Star card party at Bristol on Saturday evening.

Nancy Mae Evans is at home from Wilmot High school with measles. Kathleen Richards is also at home with chicken pox.

Mr. and Mrs. David Elfers were called to Burlington on Friday, where their granddaughter, Jo Anne Fleming was seriously ill at the Memorial hospital. Her condition since then has greatly improved.

Mr. and Mrs. Robert Patrick were Kenosha shoppers on Saturday and called on Mr. and Mrs. Eric Larson.

Mrs. Ernest Schaeften and infant son arrived home from the Burlington Hospital on Friday.

Mr. and Mrs. Virgil Wienke are the proud parents of a second daughter, born on Sunday morning at the Burlington hospital.

WILMOT

(Written for last week)

Mr. and Mrs. Leland Hegeman accompanied by Lt. Keith Hegeman of Chanute Field, are spending a few weeks at San Mateo, Calif., with Mr. and Mrs. Bob Herwig.

Donnie Swartz of Fox River Park, spent Saturday with Richard Frank.

Mr. and Mrs. Donald Brown were Sunday dinner guests of Mr. and Mrs. Peter Van Slochteran of Bristol, in honor of Mrs. Van Slochteran's birthday.

Mr. and Mrs. Walter Frank were Friday supper guests of Mr. and Mrs. Frank Zarnstorff, Sr.

Mrs. William Wertz entertained the Jolly Eight Wednesday evening.

Mr. and Mrs. Walter Frank, Mrs. Lloyd Holtdorf and Jimmy spent

Sunday at Des Plaines with Ruth Frocknow and Olga Frank. Mr. and Mrs. Herman Hasselman moved to Silver Lake Sunday.

Tractor Accidents

Refueling hazards, falls from the machine, overturning of the tractor, and unguarded power drives are the causes of most tractor accidents.

"I'm Spry as a Cricket..."

"There's spring in my step every day... because I get a good night's sleep every night under my electric blanket. At my age sleeping comfort is important, and my electric blanket keeps me just as warm as I want to be. I like turning the blanket on a few minutes early and slipping into a nice warm bed, too."

Electric bed covers bring new sleeping comfort to every member of the family. You'll find you sleep better... and feel better... when your bed is kept at a constant temperature. A dependable control automatically assures you of the warmth you want... it adjusts to changing temperatures. You'll sleep the whole night through... never waking to add a blanket or throw one off.

Cold spots are a thing of the past with electric bedcovers... your bed is cozy warm all over. And, if you're planning to save on fuel bills this year, an electric blanket will let you sleep in comfort no matter what the room temperature is.

If you like feeling spry as a cricket every morning... you'll like sleeping under an electric blanket, comforter or sheet.

... after a good night's sleep
under my **Electric Blanket!**

PUBLIC SERVICE COMPANY OF NORTHERN ILLINOIS

SALEM

(Written for last week)

The Southside Neighbors Sewing Club met recently at the home of Mrs. Howard Buening. Lunch was served during the afternoon. The next meeting will be at the home of Mrs. Billy Dix.

Sunday supper guests of the Mr. and Mrs. Robert Patrick were Mr. and Mrs. Harold Olson and son, Kenneth, of Racine.

Mrs. Charles Petersen was hostess to a group of thirty ladies on Thursday evening, with Mrs. Warren Kollock, of Paddock Lake, as guest of honor. Games had been arranged for the entertainment and at the close of the evening the hostess served a lovely luncheon and many gifts, which the guest of honor received were on display.

Mr. and Mrs. Ogden Fletcher and son, arrived from Chicago on Friday evening and remained until Sunday with Mrs. Janet Fletcher.

Joseph Thomas has returned to Dunellow, Fla., where he intends to join his wife and daughter, Patty Jo, and to take up permanent residence.

Mr. and Mrs. Byron Patrick have returned from a trip through the southern states. During their vacation they visited Mr. and Mrs. E. J. Manning and Mr. and Mrs. Lloyd Henslee, of Winter Garden, Fla., and Mr. and Mrs. Frank Dixon and Mr. and Mrs. Orson Boughton, of Orlando, Fla. They also visited many points of interest in the south.

Mrs. Ernest Schaeffen is at present a patient at the Burlington hospital, having given birth to a son.

Mrs. Frank E. Johnson, 85, died suddenly at her home in Salem on Sunday morning. She was born in Sweden, June 6, 1864, and lived in Elgin and Chicago before moving to Salem 41 years ago. She was a member of the Salem Methodist church. Surviving in addition to her husband are a daughter, Mrs. Eleanor Imrie, of Salem, and two sisters Mrs. Daniel Haight and Mrs. Selma Campbell, both of Elgin. The funeral was held on Tuesday afternoon at the Strang Funeral home. Interment was at Salem Mound Cemetery.

1899 50 THIRTY YEARS OF SERVICE AT A SAVINGS 1949

Tom Kelly Will Address Farm Bureau Members at Annual Meeting, Feb. 19

D. H. Minto's Term Expires Director—Election to Be Conducted

Tom Kelly, nationally known soil conservationist, will address the 34th annual meeting of the Lake County Farm Bureau, according to E. E. Elsbury, president. The meeting will be held at the Grayslake Grade school Saturday evening, Feb. 19, starting at 8 o'clock.

Mr. Kelly was for several years on the staff of the U. S. Soil Conservation Service. In his 18 years of conservation crusading, Tom Kelly has traveled well over 175,000 miles and given 50,000 lectures on the subject. Kelly is not an ordinary lecturer. He combines his talent as a cartoonist with his witty humor and wise counsel. His talk runs the gamut of humor, pathos, drama and religion. Those who hear and see him will never forget the powerful story he presents.

Election of Officers
An important item of business during the 8-10 p. m. program will be the election of seven directors.

The seven directors whose terms expire are D. H. Minto, George Vose, Ray Flood, Harry Matthews, L. A. Huebsch, George Leikam and George Grever.

Following the business meeting a program of old time and modern dancing will be held. Refreshments will be served during the dance program.

All farm bureau members, their families and friends are invited to attend the 34th Annual Meeting.

Farm Record Book Meeting

A record book meeting for all who have purchased the Illinois Farm Account book, and others who are interested, will be held at the Farm Bureau office in Grayslake, Tuesday, Feb. 8, starting at one o'clock p. m., according to Farm Adviser Ray T. Nicholas.

George Whitman, farm management extension specialist, will assist with the meeting and point out how the Illinois Farm Account book can be an aid to increasing farm income.

Mastiff Fights

Until Victoria's time, mastiffs in England provided cruel amusement in spectator pits for dog fighting and bull and bear baiting. On the queen's insistence, such exploitation was outlawed in 1835, though the law was held lightly for many years.

Meeting of Dairy Farmers Called for Thursday

Measures which Lake County dairy farmers can take to increase their income will be discussed at a Dairy Feeding and Management meeting to be held at the Farm Bureau hall in Grayslake, Thursday Feb. 10, according to Ray T. Nicholas, farm adviser.

Prof. C. S. Rhode, dairy extension specialist, will lead the discussion, which will start at 1 p. m. This speaker is recognized as one of Illinois' leading dairy cattle specialists. He is without doubt familiar with more dairy cattle herds and their feeding and management practices than any other person in the state.

Christmas Seal Sale Falls Short of Goal In Lake County in 1948

Returns from the 1948 Christmas Seal Sale have reached a total of \$37,581.17 or 89% of the goal of \$42,000 set by the Lake County Tuberculosis Association, Mrs. Mabel McCullough Seal Sale Chairman announced today at the headquarters of the association in Waukegan.

Mrs. McCullough pointed out that the association's fiscal year ends on March 31, and it is hoped that the goal will be reached by then. The Seal Sale ended officially on Christmas Day but returns are still coming in and those who have not made their returns are urged to do so as soon as possible.

For the last 5 years Lake County has ranked first among the counties of Illinois excluding Cook, in the highest gross seal sale. This year, at the last count, DuPage, Kane and Winnebago counties were ahead of us, in honor of Miss Orpha L. White Executive Secretary of the Lake County Tuberculosis Association for the past 12 years we would like to win the cup again this year, Mrs. McCullough added.

The school tuberculin testing program which is going on now in the schools of the county and the chest clinic held three times weekly at the Lake County Sanatorium are projects of the association financed by the returns from the sale of Christmas Seals as are the community and industrial chest x-ray programs and the nursing and health education services which go on thruout the county continuously.

Stick of Butter

One stick of butter is equal to exactly one-half cup if measured.

Non-Skid Shoes for Tots

Sandpapering the soles of a baby's new shoes before they are worn may keep him from slipping and so prevent many falls.

Vaccinating Pigs

As small pigs are more easily handled than large ones, it is advisable to have pigs vaccinated against cholera, castrated, and ear-marked before they are weaned—at about eight weeks of age. It is more economical to have pigs vaccinated early because not as much serum is required as for large pigs and hogs. Early vaccination also provides longer immunity.

Dry Cooking

Dry cooking, such as baking vegetables and roasting and broiling meats, lowers and in some cases entirely prevents loss of vitamins by water solution. Any drippings from broiled or roasted meat and juices from baked fruits and vegetables should be used, preferably as a part of the dish prepared, for they are high in soluble vitamins and minerals.

Jumpoff Joe Creek

Jumpoff Joe creek in southern Oregon was so named when a pioneer named Joe jumped off a bank into a mountain stream, presumably for a swim.

Sericea Seed

Sericea is popular with farmers because it grows well on land much too poor and dry to grow permanent pasture plants such as white clover and dallis grass. Those who saved sericea seed this fall should find them a good source of cash income.

To Fatten Pigs

Hogging down corn is an economical and labor-saving method of fattening pigs and saving corn that otherwise might be wasted.

Dry Ice for Silo Fires

Let's hope you never see smoke coming from your silo caused by spontaneous combustion. But if it should happen, take a tip from the Kansas farmer who conferred hastily with extension agents and then called a chemical company to bring a number of cakes of dry ice. The ice was dropped in from the top of the silo and the fire went out. The dry ice or carbon dioxide method has also been used to fight fires in hay mows.

For Happy Dinners

A good dinner served amid peaceful surroundings and in an atmosphere of security is no small contribution to family life. Keep the table-talk constructive and mix with the baked beans and angel cake plenty of love, laughter, and understanding.

'Worst' Drivers

Connecticut's "100 worst" drivers are to be subjected to physical and mental tests to determine what makes them so dangerous. A special state law requires that they appear for the tests.

Leverage

Archimedes said: "Give me sufficient leverage and I will move the world."

Iron in Milk

Iron will appear in a cow's milk within five minutes after the animal is fed iron-containing food. This was discovered by experiments with radio-active iron.

Ultrasonic Sound

Sound is described as ultrasonic if the frequency is above 20,000 vibrations per second.

Iron Safely

It's a good thing to study the way you iron to be sure you're doing it safely. Provide a fire-proof cover for your ironing board. And always disconnect the wall plug before answering phone or doorbell.

Pasture Improvement

Five steps in pasture improvement; test and treat soil, disk well, reseed, control grazing and clip weeds.

South Pole Ice Cap

Growth of the South Pole ice cap is certified by the snowfalls which produce the thousands of great icebergs disgorged annually along its 12,000 mile coast line.

Area of Illinois

Illinois has a total land area of 15,806,000 acres.

Sow Thistle

Alfalfa has given good results as a control crop in fighting sow thistle, says NDAC experiment station.

Farm Children

A third of the nation's children live on farms although farm people are only one-fifth of the total U. S. population.

Rice Supply

World supply of rice is likely to continue short in 1949.

Adjudication and Claim Day Notice

NOTICE IS HEREBY GIVEN to all persons that the first Monday of April, 1949, is the claim date in the estate of Hulda Vollbrecht, Deceased pending in the Probate Court of Lake County, Illinois, and that claims may be filed against the said estate on or before said date without issuance of summons. All claims filed against said estate on or before said date and not contested will be adjudicated on the first Tuesday after the first Monday of the next succeeding month at 10 a. m.
